

## **Financing Programs for Alcoholic Beverage Companies**

**Business Finance Solutions** has designed a flexible finance program for small and mid-sized companies that use co-packers for making wine, distilled spirits, and beer.

### **Our beverage financing program is for:**

- ◆ Start-up beverage companies with private label formulas ready to begin production in a co-packing facility.
- ◆ Beverage companies with seasonal manufacturing or sales cycles.
- ◆ Boutique wine, distilled spirits, and craft beer distributors.
- ◆ Beverage companies that want to delay raising new equity until the value of their company has increased.

### **Beverage Financing Features**

- ◆ Financing for raw and finished goods inventory stored at third party warehouses or distributors.
- ◆ Leverage your credit worthy distributors and retailers with accounts receivable financing of up to 80% of sales purchase orders.
- ◆ Flexible funding levels with no monthly minimums, allowing maximum flexibility for seasonal sales and new product launches.
- ◆ Expandable credit limits to support rapid growth of inventory and sales.

### **Free Consultation**

We always offer a FREE consultation to better understand your products and business goals. (We offer customized finance programs, competitive rates and free quotes.)

### **Experts at Multi-Asset Financing**

We are experts at helping rapidly growing companies finance accounts receivable, inventory, equipment and real estate, to safely leverage these assets and grow even faster.
